GITICONTROL SERIES

# GitiControl P10

An ultra-high performance summer tire, the GitiControl P10 provides comfort and silent driving - bringing you and your family a safe and fun ride.

## TIRE FEATURES

### COMFORTABLE WHILE DRIVING

#### SOUND-MUTING WATER WAVE PATTERN

Based on the soft bionic structure design of water flow, the flowing lines can break the air flow in the main groove and optimize the tire noise.

#### OPTIMAL DESIGN OF VARIABLE PITCH AND DISLOCATION

The design of three-band variable pitch and dislocation effectively optimizes the inside noise of a driving car, also improving driving comfort.

#### PIPE NOISE OPTIMIZATION TECHNOLOGY

The optimized transverse grooves of the crown lead to the longitudinal grooves, effectively reducing the pipe resonance and unwanted sound.

### PRECISE CONTROL AND BRAKING SAFETY

#### OPTIMIZED DESIGN OF TRANSVERSE GROOVE'S CUTTING ANGLE

Achieves effective boundary curling inhibition effect, making the tire contact more uniform, while decreasing braking distance and to improving driving safety.

#### 3D DESIGN OF OUTER PERIMETER GROOVE

The outer main groove adopts 3D design, which accurately optimizes the stiffness of blocks and improves the control response for turning.

#### WIDENED & OPTIMIZED POSITIONING OF LONGITUDINAL GROOVE

The optimized longitudinal groove ratio combines a widened groove in the middle, to obtain excellent drainage performance on wet roads.

#### GROOVE PRE-DEFORMATION TECHNOLOGY

A new groove pre-deformation design facilitates drainage and reduces the tread creep deformation to achieve precise control.
